Re: Foreign Notice ID:  
EPA Notice ID: 017793/10E/17

Dear Matthew Songer:

This letter, including the enclosures, serves as the Acknowledgment of Consent (AOC) for EPA Notice ID 017793/10E/17 for the following waste stream numbers: 1. This AOC letter is valid from January 1, 2018 to January 1, 2019.

Enclosed you will find special instructions for exports under this AOC, as well as a copy of the notice. Also appended are the consented values for your notice.

Sincerely,

A handwritten signature in black ink, reading "Eva H. Kreisler".

Eva Kreisler, Senior Attorney  
International Compliance Assurance Division  
Office of Federal Activities

Enclosures

**Special Instructions for Hazardous Waste under 40 CFR Part 262 Subpart H**

Please be advised of the following special RCRA requirements for export shipments of hazardous waste. These requirements are found at Title 40 Code of Federal Regulations, Part 262, Subpart H - Transboundary Movements Exports of Hazardous Waste for Recovery or Disposal.

1. In accordance with §262.83(b)(43), if you wish to change any of the terms of the original notice should change, you must renotify EPA. See §262.83(b)(3) for details on what changes require renotification. Renotifications must be submitted electronically using EPA's Waste Import Export Tracking System (WIETS), or its successor system. Any shipment using the

requested changes cannot take place until the countries of import and transit consent to the changes and the exporter receives an EPA AOC letter documenting the countries'™ consents to the changes. Please send your renotification to: Environmental Protection Agency, Office of Enforcement and Compliance Assurance, Office of Federal Activities, International Compliance Assurance Division (2254A), 1200 Pennsylvania Avenue, N.W., Washington D.C. 20460, Attention: Notification to Export. (§262.82(e))

2. A U.S. hazardous waste manifest (RCRA manifest) must accompany each shipment of hazardous waste, unless it is otherwise exempted from manifest requirements, while the shipment is within the United States. The hazardous waste RCRA manifest for each shipment must identify the shipment as an export and list the point of departure from the United States in Item 16. The EPA consent number for each waste (see table below for values to use) must be listed on the RCRA manifest, matched to the relevant list number for the hazardous waste from block 9b. If additional space is needed, the exporter should use a Continuation Sheet(s) (EPA Form 8700 22A) (§262.5483(c)).
3. Until the AES filing compliance date that EPA will announce in the Federal Register, you must choose whether to comply with the paper border process or the electronic border process (§262.83(a)(6)(i)). If you choose to comply with the paper border process, you must:
  1. Provide the transport with paper documentation of consent (e.g., a copy of the international movement document) to attach or carry along with the manifest, or shipping papers (if a manifest is not required) for the hazardous waste shipment; and
  2. For manifested hazardous waste shipments, provide the transporter with an additional copy of the manifest, and instruct the transporter via mail, email or fax to deliver that copy to the U.S. Customs official at the point the hazardous waste leaves the United States in accordance with 40 CFR section 263.20(g)(4)(ii).

If you instead choose to comply with the electronic border process, you or your U.S. authorized agent must submit the following items in the Electronic Export Information (EEI) for each shipment, along with the other information required under 15 CFR section 30.6 (see pages Q-8 and Q-9 in Appendix Q of the Automated Export System AESTIR at [https://www.cbp.gov/sites/default/files/assets/documents/2016-Nov/Appendix\\_Q\\_PGA.pdf](https://www.cbp.gov/sites/default/files/assets/documents/2016-Nov/Appendix_Q_PGA.pdf)):

3. EPA license code (described as 'EPA License Required Indicator' in Appendix Q);
4. Commodity classification code for each hazardous waste per 15 CFR section 30.6(a)(12);
5. EPA consent number for each hazardous waste (described as 'EPA consent number' in Appendix Q, see table below for values to use);
6. Country of ultimate destination code per 15 CFR section 30.6(a)(5);
7. Date of export per 15 CFR section 30.6(a)(2);
8. For RCRA manifested shipments, the RCRA hazardous waste manifest tracking number listed in item 4 of the RCRA manifest;
9. Quantity of each hazardous waste in shipment and units for reported quantity, if required reporting units established by value for the reported commodity classification number are in units of weight or volume per 15 CFR section 30.6(a)(15); **OR**
10. EPA net quantity and EPA net quantity units of measure for each hazardous waste if required reporting units established by value for the reported commodity classification number are not in units of weight or volume. The EPA net quantity units of measure must be kilograms if the waste is a solid or liters if the waste is a liquid.

<b>Waste Stream Number</b>	<b>EPA Consent Number for Waste Stream (for EEI and RCRA manifest)</b>

017793E17001

Starting on the AES filing compliance date, you must comply with the electronic border process listed above.

4. You must prepare and ensure that an international movement document accompanies each shipment from the initiation of the shipment until it reaches the foreign receiving facility (§262.83(d)). Per contracts or equivalent arrangements, you must also require that the foreign receiving facility send a copy of the signed international movement document to confirm receipt within three working days of shipment delivery to you, and to the competent authorities of the countries of import and transit. Finally, you must additionally require that the foreign receiving facility send a copy electronically to EPA using EPA's WIETS for shipments occurring on or after the electronic import-export reporting compliance date (§262.83(f)(4)). Receipt of this signed international movement document serves as confirmation of receipt of the hazardous waste shipment.
5. Also per contracts or equivalent arrangements, you must require the foreign receiving facility to send a copy of the signed and dated confirmation of recovery or disposal, as soon as possible, but no later than 30 days after completing recovery or disposal on the waste in the shipment and no later than one calendar year following receipt of the waste, to the exporter and to the competent authority of the country of import. For contracts that will be in effect on or after the electronic import-export reporting compliance date, the contracts must additionally specify that the foreign receiving facility send a copy to EPA electronically at the same time using EPA's WIETS (§262.83(f)(5)).
6. In accordance with §262.83(h), you must file an exception report with EPA if any of the following occurs:
  1. You have not received a copy of the RCRA hazardous waste manifest (if applicable) signed by the transporter identifying the point of departure of the hazardous waste from the United States, within forty-five (45) days from the date it was accepted by the initial transporter, in which case you must file the exception report within the next thirty (30) days;
  2. You have not received a written confirmation of receipt from the foreign receiving facility in accordance with §262.83(d) within ninety (90) days from the date the waste was accepted by the initial transporter, in which case you must file the exception report within the next thirty (30) days; or
  3. The foreign receiving facility notifies you, or the country of import notifies EPA, of the need to return the shipment to the U.S. or arrange alternate management, in which case you must file the exception report within thirty (30) days of notification, or one (1) day prior to the date the return shipment commences, whichever is sooner.
7. You must submit an annual report to EPA by March 1 of each year summarizing the type, quantity, frequency, and ultimate destination of all hazardous waste exported during the previous calendar year (Â§262.83(g)). If you have used the electronic border process described in item 3 for all your export shipments, EPA will generate a draft export annual report in WIETS for your review.
8. You must keep records of AOC letters, annual reports, exception reports, confirmations of receipt and confirmations of recycling or disposal for at least three years (Â§262.83(i)). You may satisfy these recordkeeping requirements by retaining electronically submitted documents in your account on EPA's WIETS, provided that copies are readily available for viewing and production if requested by any EPA or authorized state inspector

All shipments of hazardous waste must conform to all applicable state and federal hazardous waste regulations and transportation requirements, as well as these specific export requirements.
