Special Instructions for Hazardous Waste under 40 CFR Part 262 Subpart H

Please be advised of the following special RCRA requirements for export shipments of hazardous waste. These requirements are found at Title 40 Code of Federal Regulations, Part 262, Subpart H - Transboundary Movements of Hazardous Waste for Recovery or Disposal, Section 262.83 – Exports of Hazardous Waste.

1. In accordance with §262.83(b)(43), if you wish to change any of the terms of the original notice should change, you must renotify EPA. See §262.83(b)(3) for details on what changes require renotification. Renotifications must be submitted electronically using EPA's Waste Import Export Tracking System (WIETS), or its successor system. Any shipment using the requested changes cannot take place until the countries of import and transit consent to the renotification and the exporter receives an EPA AOC letter documenting the countries' consents to the renotification.

within thirty (30) days of notification, or one (1) day prior to the date the return shipment commences, whichever is sooner.

7. You must submit an annual report to EPA by March 1 of each year summarizing the type, quantity, frequency, and ultimate destination of all hazardous waste exported during the previous calendar year (§262.83(g)). After December 31, 2018, paper annual reports will not be accepted. At that time, EPA will generate a draft export annual report in WIETS for your review and submittal.
8. You must keep records of AOC letters, annual reports, exception reports, confirmations of receipt and confirmations of recycling or disposal for at least three years (§262.83(i)). You may satisfy these recordkeeping requirements by retaining electronically submitted documents in your account on WIETS, provided that copies are readily available for viewing and production if requested by any EPA or authorized state inspector

All shipments of hazardous waste must conform to all applicable state and federal hazardous waste regulations and transportation requirements, as well as these specific export requirements.
