Re: Foreign Notice ID:  
DGGIMAR.710/005277  
EPA Notice ID: 026158/9E/20

Dear Matthew Songer:

This letter, including the enclosures, serves as the Acknowledgment of Consent (AOC) for EPA Notice ID 026158/9E/20 for the following waste stream numbers: 1. This AOC letter is valid from January 1, 2021 to December 30, 2021.

Enclosed you will find special instructions for exports under this AOC, as well as a copy of the notice. Also appended are the consented values for your notice.

Sincerely,

A handwritten signature in black ink that reads "Eva H. Kreisler".

Eva Kreisler, Senior Attorney  
International Branch  
Office of Resource Conservation and  
Recovery

Enclosures

Special Instructions for Hazardous Waste under 40 CFR Part 262 Subpart H

Please be advised of the following special RCRA requirements for export shipments of hazardous waste. These requirements are found at Title 40 Code of Federal Regulations, Part 262, Subpart H - Transboundary Movements of Hazardous Waste for Recovery or Disposal, Section 262.83 – Exports of Hazardous Waste.

1. In accordance with §262.83(b)(43), if you wish to change any of the terms of the original notice should change, you must renotify EPA. See §262.83(b)(3) for details on what changes require renotification. Renotifications must be submitted electronically using EPA's Waste Import Export Tracking System (WIETS), or its successor system. Any shipment using the requested changes cannot take place until the countries of import and transit consent to the renotification and the exporter receives an EPA AOC letter documenting the countries' consents to the renotification.

2. A U.S. hazardous waste manifest (RCRA manifest) must accompany each shipment of hazardous waste, unless it is otherwise exempted from manifest requirements, while the shipment is within the United States. The hazardous waste RCRA manifest for each shipment must identify the shipment as an export and list the point of departure from the United States in Item 16. The EPA consent number for each waste (see table below for values to use) must be listed on the RCRA manifest, matched to the relevant list number for the hazardous waste from block 9b. If additional space is needed, the exporter should use a Continuation Sheet(s) (EPA Form 8700 22A) (§262.83(c)).
3. The Automated Export System (AES) filing compliance date for export shipments of hazardous waste is December 31, 2017 (82 FR 41015, EPA-HQ-RCRA-2015-0147). As of this date, all exporters of manifested hazardous waste, universal waste, and spent lead-acid batteries for recycling or disposal, and all exporters of cathode ray tubes for recycling are required to file EPA information in the AES or AESDirect for each export shipment (§262.83(a)(6)(ii)). Paper processes at the border will no longer be allowed. You or your U.S. authorized agent must submit the following items in the Electronic Export Information (EEI) for each shipment, along with the other information required under 15 CFR section 30.6 (see pages Q-8 and Q-9 in Appendix Q of the Automated Export System AESTIR at [https://www.cbp.gov/sites/default/files/assets/documents/2016-Nov/Appendix\\_Q\\_PGA.pdf](https://www.cbp.gov/sites/default/files/assets/documents/2016-Nov/Appendix_Q_PGA.pdf)):
  1. EPA license code (described as 'EPA License Required Indicator' in Appendix Q);
  2. Commodity classification code for each hazardous waste per 15 CFR section 30.6(a)(12);
  3. EPA consent number for each hazardous waste (described as 'EPA consent number' in Appendix Q, see table below for values to use);
  4. Country of ultimate destination code per 15 CFR section 30.6(a)(5);
  5. Date of export per 15 CFR section 30.6(a)(2);
  6. For RCRA manifested shipments, the RCRA hazardous waste manifest tracking number listed in item 4 of the RCRA manifest;
  7. Quantity of each hazardous waste in shipment and units for reported quantity, if required reporting units established by value for the reported commodity classification number are in units of weight or volume per 15 CFR section 30.6(a)(15); **OR**
  8. EPA net quantity and EPA net quantity units of measure for each hazardous waste if required reporting units established by value for the reported commodity classification number are not in units of weight or volume. The EPA net quantity units of measure must be kilograms if the waste is a solid or liters if the waste is a liquid.

**Waste Stream Number EPA Consent Number for Waste Stream (for EEI and RCRA manifest)**

1    026158E20001

4. You must prepare and ensure that an international movement document accompanies each shipment from the initiation of the shipment until it reaches the foreign receiving facility (§262.83(d)). Per contracts or equivalent arrangements, you must also require that the foreign receiving facility send a copy of the signed international movement document to confirm receipt within three working days of shipment delivery to you, and to the competent authorities of the countries of import and transit. For contracts that will be in effect on or after the electronic import-export reporting compliance date, the contracts must additionally specify that the foreign receiving facility send a copy electronically to EPA using EPA's WIETS at the same time on or after the electronic import-export reporting compliance date (§262.83(f)(4)). Receipt of this signed international movement document serves as confirmation of receipt of the hazardous waste shipment.
5. Also per contracts or equivalent arrangements, you must require the foreign receiving facility to send a copy of the signed and dated confirmation of recovery or disposal, as soon as possible, but no later than 30 days after completing recovery or disposal on the waste in the shipment and no later than one calendar year following receipt of the waste, to the exporter and to the competent authority of the country of import. For contracts that will be in effect on or after the electronic import-export reporting compliance date, the contracts must additionally specify that the foreign receiving facility send a copy to EPA electronically at the same time using EPA's WIETS on or after the electronic import-export reporting compliance date (§262.83(f)(5)).
6. In accordance with §262.83(h), you must file an exception report with EPA if any of the following occurs:
  - i. You have not received a copy of the RCRA hazardous waste manifest (if applicable) signed by the transporter identifying the point of departure of the hazardous waste from the United States, within forty-five (45) days from the date it was accepted by the initial transporter, in which case you must file the exception report within the next thirty (30) days;
  - ii. You have not received a written confirmation of receipt from the foreign receiving facility in accordance with §262.83(d) within ninety (90) days from the date the waste was accepted by the initial transporter, in which case you must file the exception report within the next thirty (30) days; or
  - iii. The foreign receiving facility notifies you, or the country of import notifies EPA, of the need to return the shipment to the U.S. or arrange alternate management, in which case you must file the exception report

within thirty (30) days of notification, or one (1) day prior to the date the return shipment commences, whichever is sooner.

7. You must submit an annual report to EPA by March 1 of each year summarizing the type, quantity, frequency, and ultimate destination of all hazardous waste exported during the previous calendar year (§262.83(g)). After December 31, 2018, paper annual reports will not be accepted. At that time, EPA will generate a draft export annual report in WIETS for your review and submittal.
8. You must keep records of AOC letters, annual reports, exception reports, confirmations of receipt and confirmations of recycling or disposal for at least three years (§262.83(i)). You may satisfy these recordkeeping requirements by retaining electronically submitted documents in your account on WIETS, provided that copies are readily available for viewing and production if requested by any EPA or authorized state inspector

All shipments of hazardous waste must conform to all applicable state and federal hazardous waste regulations and transportation requirements, as well as these specific export requirements.
